Precision Elegance  
*Efficiently Innovative System  
of Human Corporation.*

New model, ARIOSO is the world's top which is embedded with state - of - the - art technology. It will satisfy you beyond your imagination with the world's first developed 2 - in - 1 system (producing Pure water and Ultra pure water from 1 system), controlled by a large touch screen, meeting the various application, elegant and practically scientific design.

# Arioso Power System

Pure water & Ultra pure (2 in 1 System)

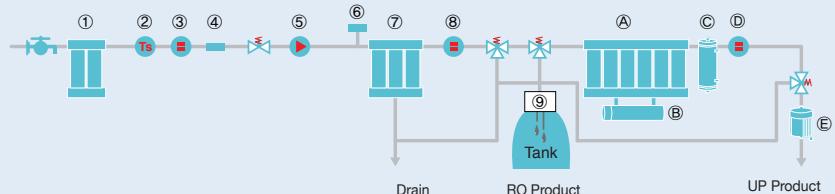

*A cup of hot coffee in harmony with cello melody,  
Feel the inspiration of the ARIOSO !!*

## Features

- Certified CE, ISO 9001, ISO 14001
- Awarded Korean excellent products
- Auto calbraion for water sensor
- Extensible point of use
- Frost alarm message
- 3, 5 steps water level sensor
- Filter exchange indicator :  
Beep & charactor display
- Languages : English, Korean, etc
- Self-diagnosis functions

*Humanism, combined with state-of-the-art features and a masterpiece of the era, ARIOSO! We feel the presence of greatness in itself.*

### TOC measuring principle

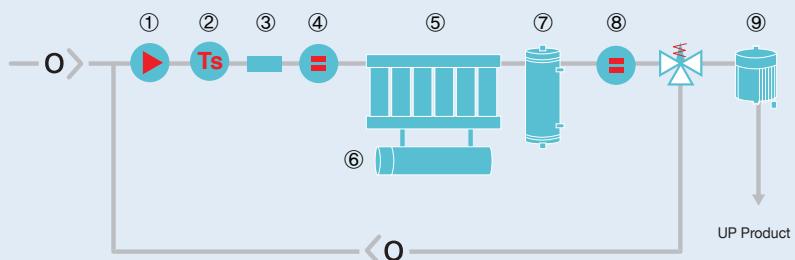

### TOC measuring principle

- 1) Measuring conductivity and temperature of the water before oxidation in S1.
- 2) Oxidizing it with UV lamp in the chamber.
- 3) Measuring conductivity and temperature of the water after oxidation in S2 and compensating at 25°C.
- 4) Measuring TOC value with difference between the conductivity values in S1&S2.  
( $\Delta$ conductivity = S2-S1)
